Genoa, November 19.

THE Marqueſs de Villa Major, who was formerly Envoy here, and at the Court of Turin, has received a Letter dated the 22d of October from the Spaniſh Secretary of State the Marqueſs de Grimaldo, wherein by King Philip's Order he adviſes him, that the Troops which were drawn together in Andalouſia, were deſigned to be tranſported to Africa, under the Command of the Marqueſs de Lede, to raiſe the Siege of Ceuta, &c. and directs him to make this publick as he ſhould find convenient. The Marqueſs de San Phſlipe has notified to this Government an Edict of the King of Spain, preſcribing Rules to all Ships that ſhall go from theſe Parts for the Coaſt of Spain, to prevent their bringing the contagious Diſtemper from France; requiring them to have Certificates not only from the Cuſtom-Houſes and Offices of the Magiſtrates of Health, but from their reſpective Conſuls reſiding here; and if they do not produce ſuch Certificates, the Goods on their Arrival in Spain are to be burnt, as ſeveral Veſſels and their Lading have already been at Barcelona; and ſome Veſſels that went from hence for the Coaſt of Spain, before the Notice of this could get hither, have been forced to come back again.

Gibraltar, Oct. 21, *O. S.* Captain Stewart, in His Majeſty's Ship the Winchelſea, is arrived in this Bay; in his Paſſage hither (on Monday Night laſt, off the Streights Mouth,) he fell in with a Fleet of between 50 and 60 Sail of Spaniſh Ships convoyed by two Men of War of 60 Guns each, which had ſailed from Cadiz the Day before. The next Morning he ſpoke with one of the Tranſports, the Captain of which coming on board him reported, that the Troops in that Fleet were to the Number of about 15000 Men, and were to be landed at Ceuta. This Ship which he ſpoke with had 400 Men in her beſides her own Complement, and but five Days Proviſions. The Wind being Eaſterly and violent obliged them to return back again to Cadiz. Captain Stewart ſheltered himſelf during the Storm under the Barbary Shore, and came in hither Yeſterday! He found here ſix Spaniſh Gallies, with three Malteſe Men of War, which ſailed immediately with a great Number of Tranſport-Boats for Ceuta.

Malaga, Nov. 5. A few Days ago the Regiment of Foot of Corſica arrived here by Land from Alicant; came in alſo three Malteſe Men of War, with about 30 empty Saetias and Tartans from the Bay of Gibraltar, which are taking in Water and Straw for Ceuta with all Expedition, and are likewiſe to take on board the ſaid Regiment of Corſica, with the two Batallions of the Regiment of Murcia, and may ſail in four or five Days. We have certain Advice, that 10 Batallions which were ſhipped from theſe Parts have been landed at Ceuta; as alſo ſome other Regiments of Foot which were imbarked from the Bay of Gibraltar. The great Convoy from Cadiz was twice put back by contrary Winds, and was ſtill there on the 30th paſt. But as there has ſince been a fair Wind for them, it is ſuppoſed they are ſailed again before now. They write from Alicant the 21ſt paſt, that they were then taking Ships into the King's Service, ſuppoſed to be deſigned to tranſport more Troops to theſe Parts, there being arrived in that City and Country adjacent, from Catalonia, two Regiments of Walloons, the Iriſh Regiment of Waterford, the Regiment of Zamora conſiſting of two Batallions, and one or two more. We have alſo an Account, that two Batallions of Walloon Guards are on the March from Madrid for Cadiz. Publick Prayers are ordered to be made throughout the Kingdom for the Succeſs of his Catholick Majeſty's Arms againſt the Moors.

Malaga, Nov. 5, *N. S.* The Governour of this Place has ſignified to Mr. Holloway the Britiſh Conſul here, an Order which he has received from his Catholick Majeſty, prohibiting all manner of Trade and Commerce with France upon Account of the Plague: No Goods from

from any Part of France will hereafter be admitted, and all Britiſh Ships and others are to bring proper Certificates of the Manufacture of the Goods they bring, and in what Port or Place they were laden; without which Certificates no Goods are henceforth to be admitted in Britiſh, or in any other Ships: If they bring any kind of French Goods they will not be admitted to Commerce: And if they do not declare the ſame, and ſuch French Goods ſhall afterwards be found on board, or fraudulently introduced as Britiſh, and be afterwards detected, the Ships and Cargoes where ſuch Fraud ſhall be committed, are to be burned, and the Crews impriſoned: Any Merchant or other Perſon that is found guilty herein, or acceſſary hereto, is not only to be impriſoned, but his Eſtate is to be confiſcated.

Madrid, Nov. 11, N. S. On the 7th Inſtant Collonel Stanhope, His Britannick Majeſty's Miniſter, received the following Letter from the Marqueſs de Grimaldo Secretary of State.

SIR,

IN your Letter of the 21ſt of October laſt, you incloſed and recommended a Memorial of Mr. John Reynel an Engliſh Merchant in Alicant, to have a Ship named the Mary admitted into that Port, becauſe coming from New England with a Lading of Codfiſh, ſhe could not be ſuſpected of the Plague. At the ſame Time you deſired, that ſeeing other Ships which come from the Ocean are not liable to the like Infection, Orders might be ſent to the Governours of the Ports of theſe Kingdoms, to give them free Admittance; as alſo that thoſe which ſhould come from Minorca with the neceſſary Certificates of Health, might not be refuſed Admittance into Alicant. I having laid theſe Inſtances before the King my Maſter, his Majeſty has commanded me to acquaint you that Orders are diſpatched for permitting the Codfiſh to be landed, as alſo for allowing Commerce with ſuch other Ships as ſhall come from New-England with the like Lading, or from the Iſlands under the Dominion of France called Terranova, provided they bring no other Goods, and make their Voyage directly. His Majeſty has likewiſe given Order, for allowing Commerce with Ships coming from Port-Mahon, provided they have not touched at the Ports of France, have Certificates of Health, ſtaid ſome Time at Port-Mahon, and came directly from thence to the Spaniſh Ports. As to the Admittance of all Ships coming from the Ocean, all the Ports of France are excepted; and his Majeſty has given Orders for admitting thoſe of England or of other Northern Parts, on Condition they be firſt ſearched and perform Quarantain: The like to be obſerved with reſpect to the Goods and Merchandize of thoſe Parts, provided there be none of thoſe of France among them.

From the Eſcurial, Nov. 7, 1720. *The Marqueſs de Grimaldo.*

The preceeding Articles from Malaga and from Madrid are publiſhed at large, to the Intent all Britiſh Merchants trading to the Dominions of Spain, may take Notice of the Rules therein preſcribed, and conform themſelves exactly thereto, to prevent any Inconveniencies or Loſſes which they may otherwiſe ſuſtain.

Whitehall, Nov. 26, 1720. J. CRAGGS

Paris, Nov. 27. On Sunday laſt the Parliament of Paris celebrated the High Maſs at Pontoiſe with the uſual Solemnity; which was followed by a magnificent Entertainment given by the firſt Preſident and the Preſident a Mortier on that Occaſion. A Beginning was made on Monday laſt at the Bank to redeliver the Actions of the India Company to the Proprietors, who had been obliged to carry them in to have a new Stamp put to them; but thoſe who according to the Liſts made out are to depoſit a certain Number of them for three Years, are obliged to let them remain in the Hands of the Directors. An Arrêt was publiſhed Yeſterday, injoining all the Bankers of the Kingdom to anſwer the Bills of Exchange drawn upon them, in current Accompts in Bank, and not in ready Money. Sig. Vincentini, who reſided lately at Naples on the Part of the Republick of Venice, is arrived here in the Quality of Miniſter from that Republick. Letters from Marſeilles of the 15th Inſtant adviſe, that the Phyſicians had agreed the contagious Diſtemper there was over; of which they were ſo much perſwaded in that City, that they obliged all thoſe who returned thither from the Baſtides to hold a Quarantain; and the Gates of the Town were guarded with the utmoſt Care. They add, that none were any longer ſhut up in their Houſes, all the Inhabitants converſing freely with one another.

Paris, Nov. 30. The Parliament at Pontoiſe has tranſacted nothing of Moment ſince their Meeting; though it was expected they would have taken immediately into Conſideration the King's Letters Patents concerning the Agreement of the Biſhops about the Pope's Conſtitution; but as there are above

160 Counſellours of that Body at Pontoiſe, 'tis believed ſomething of Conſequence will be propoſed within a few Days. An Arrêt of the King's Council was publiſhed Yeſterday, annulling all the Actions of the India Company, for each of which there ſhall not be paid before the 20th of December next the Sum of 150 Livres, two thirds in Money and one in Bank Bills, by way of a Loan to that Company. The Conſternation of thoſe who are intereſted in the Actions is unſpeakable. Since the Publication of this Arrêt the Actions are fallen conſiderably, as are likewiſe the Bank Notes. M. de St. Conteſt and de Morville, appointed Plenipotentiaries of France for the enſuing Congreſs at Cambray, are to ſet out on Tueſday next for that Place. M. de Bielke, Envoy Extraordinary from the King of Sweden, had a private Audience of the King on the 27th Inſtant, to which he was introduced by M. de Saindot. They write from Avignon the 20th Inſtant, that the Report which had been ſpread of the Plague's being got into that Place was entirely groundleſs, and that there was not the leaſt Sign of any contagious Diſtemper in that City. They add, that the Plague had done hitherto but little Damage either at Aix or Apt.

St. James's, November 25.

On the 18th Inſtant M. Schmittman, Reſident from the Elector Palatine, had a private Audience of Leave of His Majeſty.

The next Day Sig. Claudio Ré, Secretary from the Duke of Parma, had a private Audience of Leave of His Majeſty: They were both introduced by the Right Honourable James Craggs, Eſq; one of His Majeſty's Principal Secretaries of State, and conducted by Sir Clement Cottrell, Kt. Maſter of the Ceremonies.

On the 21ſt M. Schmittman, had private Audiences of Leave of their Royal Highneſſes the Prince and Princeſs of Wales; being introduced by the Maſter of the Ceremonies.

On the 22d Sig. Claudio Ré had private Audiences of Leave of their Royal Highneſſes the Prince and Princeſs of Wales; to which he was introduced by the Maſter of the Ceremonies.

On the 23d M. Schmittman and Sig. Ré took Leave of the young Princeſſes at St. James's; to whom they were introduced by Sir Clement Cottrell, Kt. Maſter of the Ceremonies.

On the 23d, Mr. Nicholſon, His Majeſty's Captain-General and Governour in Chief of the Province of South Carolina, had the Honour to kiſs His Majeſty's Hand for that Government, being introduced by the Right Honourable Mr. Secretary Craggs, and was very graciouſly received by His Majeſty.

Weſtminſter, November 25.

This Day the Parliament met, and was further prorogued to Thurſday the 8th of December next.

Whitehall, November 26.

Letters from Scotland by the laſt Poſt contradict the Report that the Plague was broke out in the Iſle of Man, from whence they have Letters of a very freſh Date, importing that that Place is in perfect Health; and that the Governour had received Orders from the Earl of Derby not to ſuffer any Ships to come in there till they had performed Quarantain, and that in order to oblige them to it Guards were placed all the Iſland round, and were upon Duty both Day and Night.

Whitehall, Nov. 26. *This is to give Notice to A. C. that one of His Majeſty's Principal Secretaries of State has received his Letter dated London Nov. 22, and likewiſe one of a former Date.*

This is to give Notice to all Maſters and Commanders of Ships and Veſſels, paſſing by Dover Harbour, that on the 10th of October 1720, there will be erected on the South Pier Head of the ſaid Harbour, a Lanthorn Light by Night, and a Flag hoiſted by Day, ſo ſoon as there ſhall be ten Foot Water on the Flood between the Pier Heads, and to continue until the Water is decreaſed on the Ebb to ten Foot, and then the ſaid Light will be put out, or the ſaid Flag ſtruck, and this will be done all the Year round; the ſame Harbour being now very commodious for the Reception of trading Ships and Veſſels, there being 13 Foot Water on Neip Tides, and upwards of 18 Foot on common Spring Tides.

Royal Hoſpital at Greenwich, Nov. 19, 1720.

The Directors of His Majeſty's Royal Hoſpital for Seamen at Greenwich, do hereby give Notice, that ſuch Perſons as are willing to ſerve the ſaid Hoſpital with good Malt and Hops, may give in their Propoſals and Samples to them, on Saturday the 3d of December next, at Nine in the Morning, in the ſaid Hoſpital.

Advertiſements.

WHereas in the firſt Year of the Reign of his preſent Majeſty King George, I preſented a Method in two printed Papers to the Lords Commiſſioners, for the finding out the Longitude, by a Wheel fixed through the Bottom of a Boat towed by the Ship, or fixed in any Part of the Ship it ſelf, as in the Breaſt, exactly before the Cutter, or in the Stern, ſo far back that it may not incommode the Rudder; which laſt Place I think moſt proper, there being little or no Objection againſt it, ſo placed that Part of the Wheel may be in the Water, which, as the Ship moves, will turn, and turning will meaſure the Way which the Ship runs, as exactly as a Perambulator will do the Roads by Land; which being known, the Longitude and Latitude may be known alſo, by meaſuring with a Pair of Compaſſes ſo many Degrees in the ſame Point, upon a Globe, that the Ship has run; then turning the Compaſſes to the nigheſt Part of the Æquator, being the Meridian they are under, will ſhew the Latitude, and the Diſtance from thence upon the Æquator to the Meridian from whence they departed is the Longitude. From the Wheel there muſt be ſome Clock-work with an Index that ſhall ſhew every Mile or League that the Ship has run. The Wheel muſt be made only of Spoaks, of a triangular Form, with their flat Sides oppoſed to the Water, that the daſhing of the Waves may have little Force upon them. Any Body that can make a Perambulator will make this. It will be neceſſary to meaſure how many Engliſh Miles there are in a Degree, or how many Yards there are in a Geographical Mile by this Inſtrument, before you compute by it. This is to give Notice, that if any Captain or Maſter of a Ship, or other Perſon,

Perſon, will undertake to get this Engine made, as above deſcribed, and make the Experiment of it at Sea, ſo as to ſatisfy the Government of the Truth of its Performance, it ſhall have the firſt that does it ſhall have the tenth Part of any Premium or Reward that ſhall accrue to me from the Government by Act of Parliament, for finding out the Longitude; and of all other Premiums from all foreign Nations that I ſhall obtain thereby. Worceſter, Oct. 25, 1720.
